

There are many people in my community like in the rest of the world that are seeking freedom from this perverted word but do not know how to; Air1 helps provide that freedom. I truly believe my community would be greatly affected if Air1 was displaced because Air1 helps many listeners become better more positive mothers/fathers, sons/daughters, employees, friends, co-workers and much, much more. This world is already bad enough with these positive tools, Can you imagine what our world would be like without them. I believe the public listens to Air1 because it makes a difference in their lives at the same time they have an opportunity to escape the destruction this world brings. Just take in consideration a hurting person driving to work on a regular day, listening to Air1 and allowing their soul and mind to be healed. Now compare that to a hurting person driving on their way to work listening to a negative message on the radio, the outcome can be deadly. EVERYONE BENEFITS FROM AIR1!!
